C500 & C500S CAN CRUSHERS

Tony Team can crushers are ideal for use in schools, hospitals, offices, leisure outlets, supermarkets and anywhere cans accumulate.

The machines take all sizes of cans up to 500ml. Simple to use, cans can be processed at a rate of 12 per minute with no need to press any buttons.

Tony Team's safe and reliable can crushers are available in two models, the C500 and C500S - the latter being able to separate aluminium and steel cans for ease of recycling.

Safe - will not operate unless chamber protected
Easy to operate compact design
Will only crush metal
Crushes all can sizes up to 500ml
Large capacity - up to 1250 cans
Stainless steel cabinet with Perspex door

OPERATION & MAINTENANCE

The C500 and C500S are designed to compact drinks cans up to 500ml.

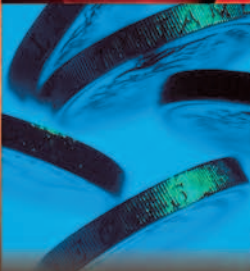

Cans should be emptied of any remaining liquid into the receptacle provided.

Empty drinks cans should be placed into the compaction chamber.

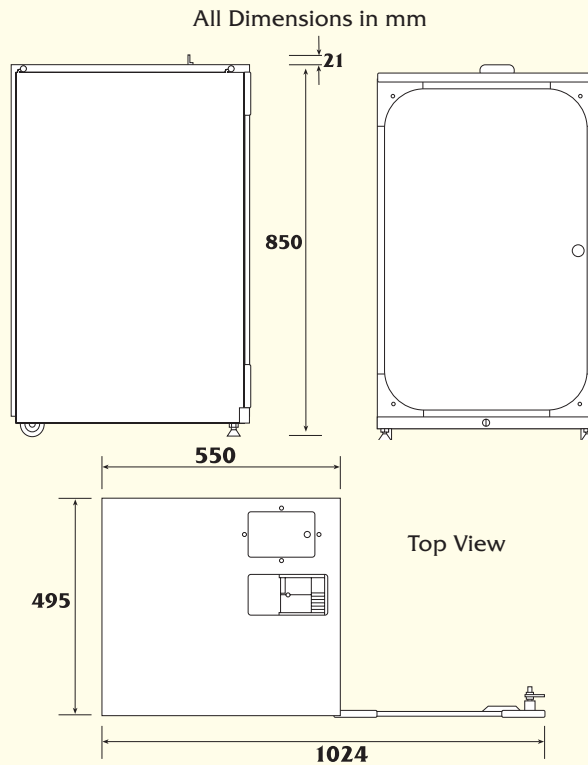

The compaction chamber guard should be closed by pulling it forward.

The machine should be kept clean. The chamber and inside of the machine can be wiped over using warm soapy water.

C500 & C500S CAN CRUSHERS

TECHNICAL SPECIFICATIONS

Machine Dimensions/Weight

Size	495mm wide x 850mm high x 550mm deep Depth increases to 1024mm when door open for maintenance
Weight	58kg (empty)

Electrical

Supply	230 ± 10% volts AC, 50Hz single phase
Hydraulic motor	240 v AC nominal, 1.6 Amp, 50Hz single phase, 0.37kw. 1370 rpm.
Compaction force	7300N (750kgf, 1650lbf)

Capacity

C500	Approximately 1000 cans (330ml size) when compacted. Weight equivalent to 14Kg if all cans aluminium, 36Kg if all cans steel.
C500S	Approximately 750 aluminium cans and 500 steel cans (330ml size) when compacted. Weight equivalent to 10.5Kg aluminium cans and 18Kg steel cans.
