

# Advanced compaction for a cleaner environment

## Two Wheeled Bin Compactor

The Tony Team Two Wheeled Bin Compactor allows waste and mixed recycling to be compacted directly into standard 240 litre and 360 litre bins.

Waste volume and disposal costs are reduced by up to 66%, saving valuable storage space and saving money.

The Two Wheeled Bin Compactor can be located close to the source of waste or in a designated waste area.

### Key Features

- A compaction ratio of 3:1 (depending on the material used)
- Reduces the frequency of waste collections
- Reduces the number of bins on site
- Base resting plate ensures wheels are not damaged during compaction
- Two hand operation ensures safer working environment

Total Waste Handling Solutions  
for a Better Environment

## Technical Specifications
